DETAILED ACTION

1. This is in response to applicant's amendment filed March 24, 2005, in which claims 1-6 are pending.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claims 1-6 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The amendment to the claims 1-6 intrudes new matter that the specification does not support the subject matter amended. Neither applicant point out in the remark nor amend the specification, simply the hinge spindle "rotatebly" fit in the hinge hole, is a new matter without support in specification as originally filed.
